

Green Jobs Symposium

Tours from 2:00 to 3:00 PM of Sustainably Designed Del Sur Elementary School

The San Diego Region is poised for an unprecedented push forward in renewable energy, water conservation and other sustainable business practices.

The "Green Economy" revolution has begun and stimulus funding is already beginning to move to San Diego. The questions are "Where should we focus our growth to ensure a sustainable future? How do we do it?"

Come join us as we share a recently completed study that evaluates green jobs in our community. A panel of business, government and community leaders will discuss the way forward to a sustainable future and seek input from you.

When: Wednesday, 17 June 3:00 PM to 5:00 PM

Where: Elementary School, 15665 Paseo Del Sur

To RSVP call (619) 660-4583, or email tracy.calahan@gcccd.edu
